

# ROHITH VIJAY

## Front-end Developer

Mobile: +1 (548) 577 8889 | E-mail: [rohithvijaypersonal@gmail.com](mailto:rohithvijaypersonal@gmail.com)

Website: <https://rohithvijay.github.io/Portfolio/> | LinkedIn: [www.linkedin.com/in/rohith-vijay](https://www.linkedin.com/in/rohith-vijay)

### OBJECTIVE

Highly skilled and motivated front-end developer with 6 years of experience in building user-friendly and visually appealing web applications. Seeking a challenging position to utilize expertise in HTML, CSS, JavaScript, and modern front-end frameworks such as React or Angular to contribute to the development and enhancement of innovative digital experiences.

### KEY RESPONSIBILITIES

- ✓ Proficient in writing clean and well-structured **HTML**, **CSS**, and **JavaScript** code, adhering to industry best practices and coding standards.
- ✓ Strong understanding of **TypeScript's** type system, including interfaces, types, and generics.
- ✓ Proficient in building web applications using **React.js**, including **class components** and **functional components**.
- ✓ Strong understanding of React concepts like **JSX**, **virtual DOM**, and **component lifecycle**.
- ✓ Successfully implemented a complex **Redux state management system** in a large-scale project.
- ✓ Familiar with React hooks like **useState**, **useEffect**, and **useContext** for better code organization and reuse.
- ✓ Skilled in implementing client-side routing with **React Router** for single-page applications.
- ✓ Capable of integrating **RESTful APIs** and **GraphQL** into React applications for data retrieval and manipulation.
- ✓ Proficient in making asynchronous requests using technologies like **Axios** or the **fetch** API.
- ✓ Advanced proficiency in using CSS frameworks like **Bootstrap**, **Material UI** and **Tailwind** for styling and creating Responsive Web designs.
- ✓ Hands-on-Experience in CSS preprocessors like **SASS** and **SCSS**.
- ✓ Followed **Responsive Design Principles** to create websites using **Mobile-first approach**, **Media queries**, **Flex concept**, and **Fluid Grids**.
- ✓ Proficient in configuring **Webpack** and **Babel** with **TypeScript** for bundling and transpiling React applications.
- ✓ Proficient in troubleshooting and debugging issues in applications, utilizing **browser developer tools**.
- ✓ Competent in creating, managing, and prioritizing issues, tasks, and user stories within **Jira**.
- ✓ Adept at **Agile Methodologies**, **SDLC** and **BDD** for effective teamwork and project management.
- ✓ **Excellent time management** and prioritization skills to meet project deadlines.
- ✓ **Adaptable** and willing to take on various roles within the team to achieve project goals.
- ✓ Proficient in conveying complex technical concepts to both technical and non-technical team members.

### EDUCATION & CERTIFICATION

#### BACHELOR OF TECHNOLOGY – COMPUTER SCIENCE

- Pursuing AWS Solution Architect Associate Certification.

## WORK EXPERIENCE

### SENIOR SOFTWARE ENGINEER

MAR 2022 – AUG 2023

Quest Global | Clients: Canon Medical, General Electric, Philips

#### KEY PROJECTS AND ROLES

- **Canon Medical - Role as Senior Software Engineer**

Developing and maintaining web applications using Angular framework to support various processes and systems.

- Designing and Implementation of responsive layouts, forms, and interactive components using Angular, HTML5, SCSS and Bootstrap 5.
- Worked closely with professionals and stakeholders to understand their requirements and translate them into functional features. This involves implementing complex business logic and workflows within the Angular application.
- Implementation and Integration of REST APIs into the application using RXJS library in Angular.
- Clear and comprehensive documentation of design decisions and diagrams to understand the overall structure and design principles.
- Ensured overall product quality throughout the entire software development life cycle.

### SENIOR UI DEVELOPER

SEP 2019 – MAR 2022

Reflections Info Systems

#### KEY PROJECTS AND ROLES -

- **PASS ML - Role as Senior UI Developer**

Collaborated with internal teams and vendors to fix and improve products and services. Implementation of responsive layouts, forms, and interactive components using React, JSX and Bootstrap. Implementation and Integration of REST APIs into the application using RXJS library in React. Identification and fixing bugs, as well as optimizing performance.

- **SVAST - Role as UI Developer**

Designing and developing robust solutions to meet client requirements for functionality, scalability and performance. Worked with back-end programmers to implement REST API using Angular. Wrote understandable HTML, SCSS and Angular to build responsive web-based applications. Followed Agile development methodology to ensure product quality. Regular meetings and communication with team members to keep the track of the tasks in the projects.

### SOFTWARE ENGINEER

JUL 2017 – SEP 2019

Cycloides Technologies | Clients: Tune Protect, Policaro Group, Commissionaires, Onedles

#### KEY PROJECT AND ROLES -

- **TUNE PROTECT - Role as a React Developer**

Translated design teams UX wireframes and mockups into responsive, interactive features using React (JSX) and building responsive websites for the website. Integration of API's and unit testing.

- **My Recycle Buddy - Role as an Angular Developer**

Translated design teams UX wireframes and mockups into responsive, interactive features using HTML, CSS and Angular. Integration of REST API's using Angular.

- **Commissionaires - Role as an Ionic Developer**

Developed UI design and API integrations for mobile applications using technology like ionic framework which used ionic libraries and JavaScript framework like angular 2.

- **Onedles - Role as an Angular JS Developer**

Web development using HTML, CSS, and AngularJS for building and developing UI components. Involved in building responsive web designs and fixing browser compatibility issues. Identification, fixing and tracking the bugs in the Redmine tool.

## TECHNICAL SKILLS

- Project/Quality Management – JIRA, Redmine
- Version Control System/DevOps – SVN, GIT, GitHub
- Database Management – SQL Server, Oracle 12c, MySQL queries
- Operating Systems – Linux, Windows
- Tools – Visual Studio, Visual Studio Code
- Frameworks - JavaScript, Angular, React
- Methodologies – Agile (Scrum), SDLC, Waterfall
